EXPERIENCE

QMC MEX | FEBRUARY 2023 - PRESENT
Web Developer

I designed and developed course management systems for Mercedes Benz in the US and Mexico, optimizing certification issuance and process efficiency. For QMC, I implemented a system to manage events, quotes and course schedules. In addition, I led the front-end development for the website of a new university, coordinating tasks and supervising the team of developers.

QMC MEX | OCTOBER 2022 - FEBRUARY 2023
Support and Network Assistant

I performed maintenance on computer equipment and managed data backups. Additionally, I provided technical support for computers and mobile devices.

ELECTRONIC CATS | MAY 2022 - AUGUST 2022
WordPress Maintenance Specialist

Improvement and implementation of new features for the company's website using WordPress and some plugins provided by it.
